# The **Boss**

- » The Boss is a sleek and modern fully-welded AV cart that adds an element of contemporary style to any room. Attaching the heavy-duty 4" casters (2 locking) is the only assembly required!
- » Top shelf includes a non-skid pad and security rails. The two side shelves fold when not in use and also feature non-skid pads.
- » The sides of the unit are perforated for proper heat ventilation and the unit includes grommets for cable management.
- » A 7-outlet electrical assembly with a 25' cord is mounted on the bottom shelf.
- » Built-in VGA, USB, AV input/output inlet for connections to computer, projector, internet cables, etc. are located under one side shelf. A four outlet electrical assembly is located under the other side shelf.
- » A retractable projector shelf with non-skid mat tilts to position equipment.
- » Two locking doors on the front of the unit provide security, and feature storage bins mounted on the inside to provide a place to store additional cables or presentation materials.
- » The back of the unit features a single locking door, vented for sound, with two speaker cavities mounted on the inside.
- » Give the Boss even more versatility with either the optional monitor mount arm or the optional TV mount arm. Either assembly makes the Boss ideal for group presentation activities in an office, meeting room, or training room.
