

Most CPU security systems secure the CPU, but not the data. The CPU Hangar™ not only secures the CPU but helps to prevent any type of unwanted access to the computer.

The unit can be secured to the underside of desks or worksurfaces. The unit can also stand alone, with or without wheels, making the unit portable but still secure.

Cable grommets in the back of the unit make organizing cords and wires simple, while vented side panels provide plenty of air circulation.

**Backed by Intellerum's Lifetime Warranty**

## Mobile CPU Hangar™

Laminated top can provide a surface for external drives while coordinating with existing decor.

Vented side panels are powder coated in a wide variety of colors.

Optional locking casters make the unit easily portable.

The CPU Hangar™ can accommodate any size CPU tower.

Locking hinged door keeps your CPU secure.

Pull out tray provides easy access to your CPU for routine maintenance.
