

iPROFILE TURNTABLE WITH DIRECT-TO-IPOD TRANSFER

Enjoy the music from
your records on your
iPod.

Just dock your iPod on iPROFILE and record your vinyl right into your iPod. It's simple. It's easy. You don't even need a computer to make it happen!

The PROFILE series of LP-conversion systems is designed with contemporary, low-profile looks. Each model is designed to capture the music from your vinyl records and turn it into portable, flexible, digital MP3s that you can enjoy at home and on the go.

iPROFILE is an LP-to-iPod conversion system finished in glossy piano black. You can play records and transfer them directly to your iPod thanks to iPROFILE's integrated Universal Dock for iPod. iPROFILE also has easy-to-use USB output that enables you to capture music from records onto your computer.
