

BRETFORD BASICS™

MOBILE COMPUTER WORKSTATION WITH CPU TOWER HOLDER

EC8-PB

Bretford's EC8-PB is designed to be height adjustable to accommodate almost any user. The large worksurface provides eight square feet of work space, enough room for a computer and printer. The CPU Tower Holder is adjustable. A built-in electrical unit allows the computer to be easily powered. Workstation rolls easily on casters.

FEATURES

- UL listed utility table for the United States and Canadian markets.
- Ideal for use with shared computers in the classroom. Stores out of the way and easily repositions for use when needed.
- Supports flat panel monitors up to 24" diagonal, keyboard with mouse, and CPU tower with room for additional materials.
- Adjustable CPU tower holder mounts on either the left or right side and holds towers up to 11-1/2" w.
- Work surface can be set in height from 23" to 27" h at time of assembly for a variety of applications.
- Spacious cord management bin doubles as a modesty panel and organizes all power and data wires out of sight.
- Features a built in surge and overload protected, 3-outlet electrical assembly under the table top and comes with an on/off switch and 20 foot power cord.
- Work surface provides eight square feet of workspace.
- Constructed using an average 30% post-consumer recycled steel content and finished in environmentally friendly powder paint. Steel components are 100% recyclable at the end of the product life cycle. Certified to GREENGUARD Children & Schools Indoor Air Quality standards.
- 4" Quiet-Glide casters, two are locking.
- Made in the USA.

DIMENSIONS

Overall: 48"w x 24"d x 23"-27"h

Work Surface: 48"w x 24"d

Worksurface to Floor: 27" max., 23" min.

CPU Holder: 6-1/2" - 11-1/2"w

Cord Bin/Modesty Panel: 46"w x 4-1/2"d x 10"h

COLOR & FINISH

Putty Beige (-PB) powder paint

WEIGHT AND FREIGHT CLASS

80 lbs., Freight class 70, available to ship UPS
Ships ready to assemble in one (1) carton pack

CARTON DIMENSIONS & UPC CODE

49.5"w x 26.5"d x 8"h

UPC Code: 0 96633 17509 3

MADE IN THE USA

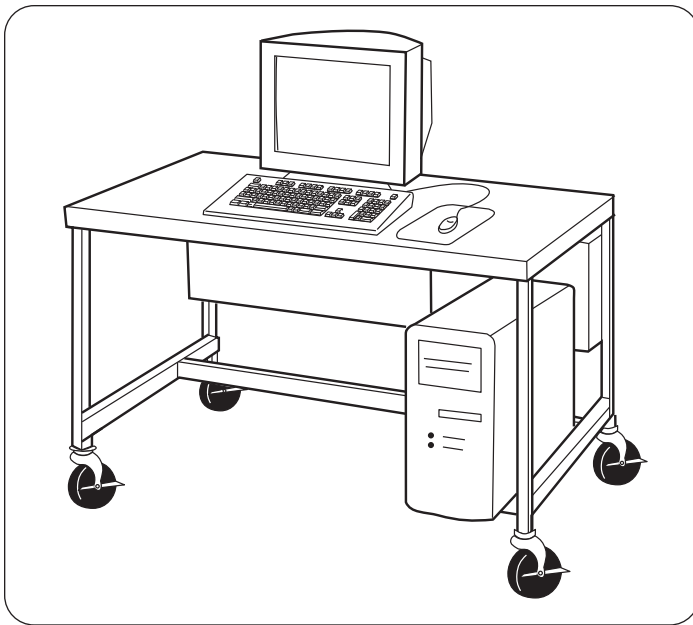

The EC series computer carts are made in Bretford's Chicago area manufacturing facilities using union labor.

ENVIRONMENTAL SPECIFICATIONS

EC series computer carts are constructed with "prime" steel which has a 25% to 35% post-consumer recycled content and 100% recyclable at the end of the product life cycle. All steel components are finished in environmentally friendly powder coat paint that eliminates VOC's. Bretford has eliminated the use of chrome plating on EC cart legs in 2005. All EC series carts are certified to GREENGUARD Children & Schools Indoor Air Quality standards.

UL LISTED

The EC8-PB is a UL Listed utility table for both the United States and Canadian markets.

SUGGESTED SPECIFICATIONS

EC8-PB Mobile Computer Workstation with CPU Tower Holder has one (1) 48"w x 24"d, 18-gauge steel work surface shelf. Corners of the shelf are open for the leg assemblies to pass through. The legs of the Mobile Computer Workstation fit flush to the shelf. Each corner has a 13-gauge steel mounting bracket with 1/4" square head bolts and hex nuts that hold leg securely to the worksurface. Legs are 18-gauge, 1" square tubular steel 22-1/4" long. Each leg is finished in Putty Beige and has a hard plastic caster insert mounted in the bottom of the tube. Microcomputer center has one (1) 18-gauge steel, welded "H" frame base assembly that attaches to the front and rear legs. Has one 18-gauge adjustable CPU holder that mounts to the left or right side of the "H" frame base. The CPU holder adjusts from 6-1/2" to 11-1/2". Has one (1) 18-gauge steel cord organizer bin of dimensions 48"w x 10"h x 4-1/2"d overall, 6"h for the rear panel of the bin and is attached between the rear legs of the table and also serves as a modesty panel. Cord bin has four (4) 5" x 1/4" slots at the top of the back panel and two (2) slots of the same dimensions, one down each side. Has a completely enclosed electrical that has three (3) grounded and surge suppressed outlets with on/off switch built in at the front underside of the worksurface. Casters are mar-resistant, hard black rubber, 4" in diameter. Each caster assembly has ball bearing swivel capabilities and steel construction. Two (2) have locking brakes. Constructed with "prime" steel which has a 25% to 35% post-consumer recycled content. Finished in Putty Beige powder paint. Mobile Computer Workstation ships knocked down (KD).
