

Circulation Chair

Circulation Stack Chair

Optional Arms

Circulation Task Chair

Circulation Chair

- » The Circulation Chair marries style and comfort in a unique, modern package.
- » The seat and back are polypropylene injection molded plastic with a molded handle in the seat back for easy mobility.
- » The seat features a 16° slope and a contoured shape for a more comfortable seating position. The seat height is adjustable from 17" to 20".
- » Ventilation holes add style and function, allowing breathable seating in any environment.
- » The Circulation Chair is available as a task chair or as a stacking chair. Stacking chairs ship four per carton.
- » Optional arms fit either chair, and are made from black injection polypropylene and 7/8" diameter silver tubular steel. Arms are packaged separately and will require assembly to the chair.
