

BRETFORD BASICS™

CONNECTIONS ADULT HEIGHT ADJUSTABLE WORK CENTERS

The Connections Adult Height Adjustable Work Centers provide maximum user comfort, attractive design, and sturdy construction. Tables feature grommet holes and hinged cord management bins for cords and wires along with integrated modesty panels. Work centers have adjustable floor glides.

FEATURES

- Attractive Grey laminate tabletop trimmed with bullnose edge band in your choice of four trim colors, Quartz grey, Cardinal red, Polo green, or Topaz blue.
- 14-gauge sturdy steel base is constructed with 30% post-consumer recycled steel and features a unique “Y” shape design.
- Adjustable in one inch increments from 24” to a 32” high clearance to meet ADA approval.
- Cord management bin with flip down door and grommet holes hide and organize electrical cords.
- 30”, 36” and 42”w tables have one grommet hole.
- 48”, 60” and 72”w tables have two grommet holes.
- Tables come with adjustable floor glides or 4” casters, two locking.
- 42” to 72”w tables are able to be accessorized with the PowerBar cord management system.
- Options include a UL listed, 4 outlet electrical unit, 2 outlet electrical/2 data jack units above the work surface, CPU tower holder, keyboard drawer, and bridge packs.
- Optional notebook computer anti-theft micro-slot cable lock secures into the micro-slot built into most notebooks and features a 6’ vinyl cable that secures by looping through the enclosed “Y” section of the upper leg assembly. Features a user programmable combination lock.

Model 3577-GM_	87 pounds, Freight class 70 UPS

All ship ready to assemble in one carton pack.

SUGGESTED SPECIFICATIONS

All tables are height adjustable from 24-32" in 1" increments. Table top is made from 1" thick laminate particle board, 45-pound density. Cord management bin is constructed from 20 gauge steel and measures 4"h x 5-3/8"d. It runs the width of the table, allowing space for optional shelves to be attached. One side is attached with hinges to the back of the modesty panel, and the other side closes with the choice of a thumb screw or theft proof screw (included) which attaches to the bottom of the work surface. 30", 36" and 42" w work centers have one grommet hole measuring 1-1/2" x 4" centered on the work surface. The 48" w work centers have two grommet holes located 24" apart. The 60" and 72" W work centers have two grommet holes located 30" apart. On the 72" w units, a 1"-square 18-gauge tube connects beneath the surface and runs across the length of the table between leg assemblies. The legs are constructed from 14-gauge steel and modesty panel is constructed from 18-gauge steel. All steel parts are constructed with "prime" steel which has a 25% to 35% post-consumer recycled content and are finished in environmentally friendly Grey Mist powder paint. Model comes with adjustable glides or 4" casters.
