## QUATTRO VOLTEA

### FLIP TOP COMPUTER TABLES

Quattro Voltea Flip Top Computer Tables have a rear door for top down management of power and data cables and are ideal for use with flat screen monitors. Tables are height adjustable to accommodate almost any one. The leg design is one of the strongest on the market and meet ANSI/BIFMA standards. Tables are Grey Mist top and base or Wild Cherry top with Black base. Trim for the Grey Mist tables can be ordered in any one of four colors.

TRIM COLORS FOR GREY MIST TABLES ONLY

#### FEATURES

- Rear cord bin door flips up for easy access to power and data cables and locks with a key when in the down position.
- Work surface is adjustable in one inch increments from 24" to 32" high, meeting ADA requirements.
- Sturdy 1" thick laminate top with steel skirt and base provide a sturdy work surface for the heaviest of equipment, Quattro tables meet ANSI-BIFMA safety and quality standards.
- Reinforced leg design is constructed from 12- and 14-gauge steel providing superior strength and stability.
- Cord bin door has cut outs to allow computer cables to easily pass into the cord bin without pinching.
- Cord management bin is 6" deep and has side cut-outs so tables may be easily daisy chained in rows.
- 36", 42" and 48"W tables are designed for one computer, 60" and 72"W tables are designed for two computers, and 84"W table are designed for three computers.
- Tables come with adjustable floor glides, 3" twin wheel casters are available to replace glides.
- Optional CPU holder mounts to the underside of the work surface and adjusts to hold towers 6-1/2" to 11-1/2" w x 20-3/8"h.
- Optional UL-listed 4-outlet electrical unit with single switch power control attaches to pre-drilled holes in the cord management bin or screws to the underside of the work surface.
- Work surface uses a substrate that is comprised of a minimal 40% and average 70% recycled materials and the base is constructed with "prime" steel which is constructed with 25%-35% post-consumer recycled steel.

## DIMENSIONS

Flip Up Cord Bin Door: 6"d (the door width depends on the overall width of the table)

### 24"D RECTANGULAR VOLTEA COMPUTER TABLES OVERALL:

All tables ship ready to assemble in two carton packs. Please call Bretford Customer Service for carton dimensions.

## COLOR/FINISH

Base/Tabletops: Grey Mist powder paint/Grey Mist laminate (-GM\_) or Black powder paint and trim/Wild Cherry laminate (-CY.)

Trim, Toe Caps & Grommet Holes (on Grey Mist tables only): Available in Cardinal (GMC), Topaz (GMT), Polo (GML) and Quartz (GMQ)

## STANDARD EQUIPMENT

1" laminate table top T-molding and steel apron around the edge

Rear flip up door with lock and two keys

Four leg assemblies with adjustable leg glides

Cord management bin

## ACCESSORIES

CFPS UL listed, surge protected 4 outlet electrical unit with on/off switch and 20' power cord

CT3CP 3" twin plastic stem caster pack

## SUGGESTED SPECIFICATIONS

Quattro Voltea Computer Tables are height adjustable from 24" to 32" in 1" increments. Available in 24", 30" and 36" depths by 30", 36", 42", 48", 60", 72" and 84" widths depending on the model specified. Laminate table top and cord bin door are made from 1" thick, 45 lb. density particle board and 1/4" thick vinyl T-molding. The flip up door includes cut-outs to let power and data cables pass into the cord bin and a lock with two keys. Note that all Quattro Voltea tables use the same key to secure the rear flip up door. Table top incorporates a 14-gauge steel apron around the table edge for maximum strength and durability. Telescoping legs are constructed from 1-1/4" 12-gauge steel and 1" 14-gauge steel tubing and attach to the top using a unique hex/tie bolt assembly. Cord management bin runs the width of the table, is constructed of 18-gauge steel and is secured to the table apron and leg with (2) 10-32 screws. Table is available in a Wild Cherry wood grain laminate with Black T-molding and Black powder paint base or with a Grey Mist laminate with Quartz, Cardinal, Polo or Topaz T-molding and a Grey Mist powder paint base. All steel components are constructed with "prime" steel which features 25% to 35% post-consumer recycled content.
